

Como crear un perfil facial

- Edusoft

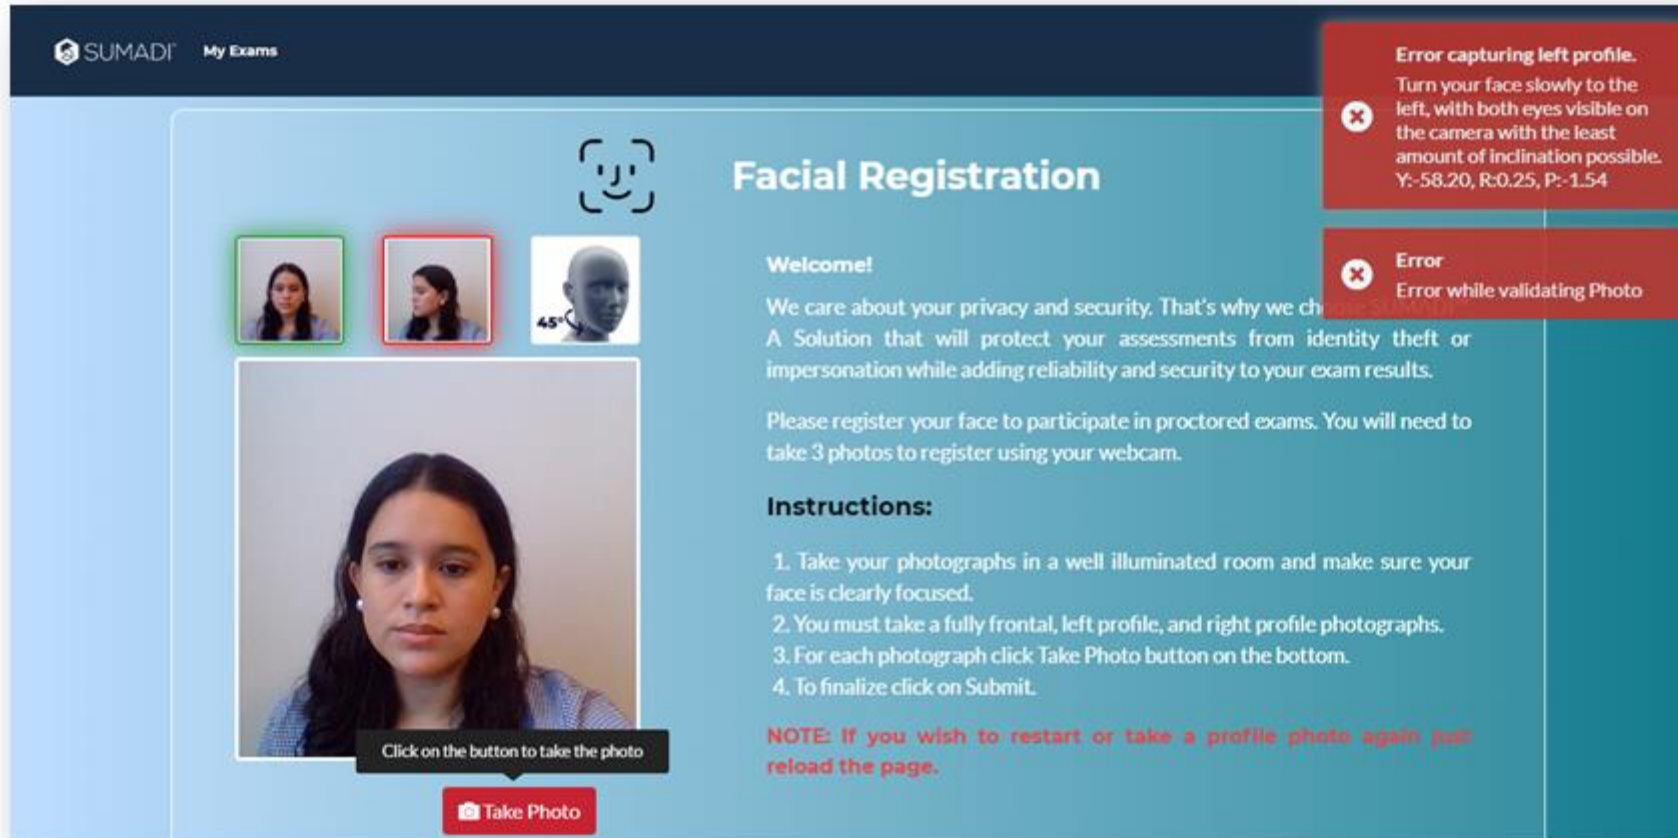

- 1 Si esta es su primera vez tomando un examen con SUMADI™, se le pedirá el registro del perfil facial. En la pantalla de Registro Facial, haga clic en el botón **Tomar Foto**, deberá tomar tres fotos en los ángulos descritos en la siguiente imagen:

Nota: En las fotografías de perfil izquierdo y derecho, no gire completamente su rostro, solo de forma leve en un ángulo de 45°

NOTA: En caso de no tomar una de las imágenes en el ángulo solicitado le aparecerá un error como el de la siguiente imagen.

The screenshot displays the 'Facial Registration' interface on the SUMADI My Exams platform. The interface includes a header with the SUMADI logo and 'My Exams' text. A central area shows a large video feed of a user's face, with a 'Take Photo' button below it. Above the video feed are three smaller thumbnail images: a frontal view, a left profile view, and a right profile view. To the right of the video feed, there is a 'Welcome!' message, a brief explanation of the system's purpose, and a list of instructions for taking the photos. Below the instructions, a red note states: 'NOTE: If you wish to restart or take a profile photo again just reload the page.' On the far right, two red error messages are displayed: 'Error capturing left profile. Turn your face slowly to the left, with both eyes visible on the camera with the least amount of inclination possible. Y:-58.20, R:0.25, P:-1.54' and 'Error while validating Photo'.

2 Una vez las imágenes sean tomadas satisfactoriamente, podrá visualizar un mensaje de confirmación de las imágenes.

- 3 Finalmente, para salvar su perfil facial haga clic en el botón de **Enviar**.

SUMADI My Exams

Facial Registration

Welcome!

We care about your privacy and security. That's why we choose SUMADI™. A Solution that will protect your assessments from identity theft or impersonation while adding reliability and security to your exam results.

Please register your face to participate in proctored exams. You will need to take 3 photos to register using your webcam.

Instructions:

1. Take your photographs in a well illuminated room and make sure your face is clearly focused.
2. You must take a fully frontal, left profile, and right profile photographs.
3. For each photograph click Take Photo button on the bottom.
4. To finalize click on Submit.

NOTE: If you wish to restart or take a profile photo again just reload the page.
